

A New Vision for Learning

Meet learners
where they are.

We believe learning needs to evolve.

In today's connected age, the possibilities for learning are endless. However, many youth struggle to harness those opportunities and are left with learning journeys that do not prepare them to participate in modern communities and workplaces. We can make learning more powerful, relevant, and connected by meeting you where they are and empowering them to explore and engage with their passions.

Platform Benefits

Serve

Serve youth better by increasing access to, engagement with, and visibility of learning experiences.

Connect

Connect youth to engaging digital content so they can easily explore their interests and learn at their own pace and comfort level.

Understand

Understand and articulate your impact with easy to digest activity, usage and performance reporting.

Leverage

Leverage our robust library of learning experiences to build your programming and reduce the time and costs associated with content creation.

Improve

Improve efficiency of program management through use of LRNG content management tools for easy curriculum standardization, sharing, delivery, and consumption.

Our Content

Focused on **distinct interest categories**, our expert content is developed alongside our corporate partners and other youth-serving organizations.

- Career & Job Readiness
- Technology & Computer Science
- Civic Engagement & Social Justice
- Writing & Communication
- Life Skills & Fitness
- Environment & World
- Arts & Entertainment
- Design & Style
- Science & Math
- Craft & Make

At LRNG, we believe that learners should be recognized for learning that takes place anytime and anywhere.

Evidence of Learning

We provide highly engaging, learner-centered digital content aimed at better preparing young people for the 21st Century workforce. The LRNG platform allows learners to create portfolios to highlight their work and badges earned. Users can assemble collections of badges, previously submitted evidence from any playlist, and any additional uploaded content into their own personalized showcase, that they can then share out to others.

Playlists.

A LRNG playlist is a curated group of learning activities and resources, stitched together into a compelling media-rich narrative around a common theme.

Digital Badge.

A shareable, digital credential that provides evidence of learning.

The way LRNG teaches is the way I like to learn because you can go at your own pace and you can get as creative as you want with it.

- Youth, San Diego

"Young people see LRNG as a less traditional, less confining, more individualized approach to learning things they are interested in. Kansas City is invested in LRNG because it's brought people from many different sectors like business and education, together to make learning fun, engaging, and meaningful for youth."

- Sly James, Kansas City Mayor
